

## WATER ACCESS - CLEAN DRINKING

To provide decentralized clean drinking water solutions to school children. 54 schools with over 27,000 children over a period of three years will be benefitted through this scheme. A solar powered and remotely monitored water purification unit and a water ARM for dispensing water at each school is set up. The water is at the WHO standard and provided for free to the school children.

## IMPACT & BENEFITS

Provides clean & safe drinking water.

Reduction of incidents of water-borne diseases.

Improved awareness campaigns among children & their families.

### LOCATIONS

Recommended State:  
● Rajasthan & applicable in other water stressed areas & poor water quality areas.

Impacting over 54 schools over 3 years and benefiting over 27000 children
